## A message from our President....Tiffany Noel

*As the first hundred days of the Trump presidency come to a close , we have much to celebrate! We have a new Conservative Supreme Court justice, an Attorney General from Alabama who we can be proud of and a tax reform plan is in the works. We've included a list of accomplishments and hope you will read those over. Our new Governor Kay Ivey has set a special election for the US Senate seat - so we should have an exciting summer. We are planning a special evening meeting for our club on June 19 at the Huntsville Botanical Gardens. We are inviting all the Senate candidates and hoping for a big crowd. Please make plans to attend. The board is working hard on submitting the paperwork for the NFRW and AFRW awards. If you haven't turned your volunteer hours in - please do that now. Please be thinking of friends to come and join our club. The more, the merrier. There's still so much work to be done. We hope you can join us next month for our regular meeting on June 6th. The presentation topic will center around Human Trafficking.*

*See you in June!*

# *News from the state party...*

**Dear Alabama Republican Friend,**

April 29th marked President Trump's first 100 days in office.

President Trump has accomplished a great deal during this short amount of time. One by one, he is following through on his campaign promises.

While emphasis is traditionally put on a new president's first 100 days, we know that the implementation of solid conservative policies is the true defining point of a successful presidency.

President Trump has instilled a new sense of optimism in the American people by bringing back American jobs, strengthening our nation's security and securing a confirmation of a Supreme Court Justice.

During his first 100 days in office President Trump has:

***Enacted more legislation and signed more executive orders in the First 100 days than any president in a half century***

***Enacted 28 pieces of legislation, more than any other president since Truman  
Signed 25 executive orders, the most of any 100 days in over 50 years (will be over 30 by day 100)***

***Achieved first Supreme Court Confirmation in 100 days since 1881  
Instituted tough immigration policies that have driven illegal border crossings to a 17-year low***

***Removed more job-killing regulations through legislation than any president in U.S. history***

***Estimated savings: \$18 billion annually***

***Economic optimism has been renewed, with consumer confidence reaching its highest level in 16 years***

***Ordered the toughest new rules to stop the revolving door between Washington lobbyists and government officials in history***

All the best,

Mrs. Terry Lathan  
Chairman, Alabama Republican Party
